Point Board Meeting

Monday, 14 December '87
6:00 pm
The Mirene, Sausalito

It seems a shame not to take advantage of the collective wisdom resident in the Point Board. In one small group we have some of the most unencumbered thinkers available. As the Point Board gathers for its year-end meeting to discuss the direction of Point in the future, I hope we consider the larger changes taking place that might emerge in the 1990s. With Point Foundation and Whole Earth as the subject, we have the needed focus to keep the conversation grounded and honest.

We'll meet on Stewart's houseboat for a light catered meal. Come at 6pm sharp so that we needn't stay late. One specific Point business topic I would like to cover is : the priorities of its growth --salaries, benefits, content, circulation, in that order? That will help me steer for the short course. The long course is the meta-subject.

Yours sincerely,
